

Fabrication options — The right source for your project

Two pathways, same quality standard. Review both options and select what fits your project timeline and budget.

	LOCAL FABRICATION	IMPORT FABRICATION
BENEFITS		
Lead time	30–60 days from slab material sourcing to delivery ✓ Significantly faster	8–12 weeks (56–84 days) from confirmed order ■ Plan ahead
On-demand delivery	Unit by unit — no waiting on customs or full shipment clearance ★ Local only	— Full shipment scheduling required
Budget	Market-rate pricing with regional labor advantage	Meaningful cost savings — especially on large-scale or value-engineered multifamily projects ✓ Cost advantage
Flexibility	Unit count changes, layout revisions, and replacements in days ✓ High flexibility	Best for fully locked specs — post-production changes can delay schedule
Field service	72-hour response for service and issue resolution ✓ 72-hr response	Majestic coordinates local install; field issues escalated to production partner
Geography	Ships cut-to-size nationwide; on-site installation within SE footprint (SC, NC, GA, VA, TN, FL) ✓ Nationwide shipping	Ships cut-to-size nationwide ✓ Nationwide
FEATURES		
Fabrication	CNC-automated domestic production — Youngsville, NC	Majestic-vetted overseas partners with calibrated factory specs — broader selection, competitive pricing, without sacrificing quality
Material palette	Best pricing on in-stock materials from top regional suppliers — widest selection for fast turnaround	Broader palette including premium imported granites, quartzites, and engineered stone
Quality control	Pre-installation photo documentation on every piece; shop drawings included	Factory QC + Majestic inspection on arrival; photo documentation prior to install
Field measurement	Available where project conditions require it ★ Local only	Cut-to-size from approved shop drawings
Infrastructure	\$1M bonding capacity · \$30M+ annual revenue · OSHA EMR <0.90 · Est. 1991 — same company backing both options	

"Whether your project calls for local speed or overseas savings, you get the same thing either way: someone who knows the trade, knows the materials, and picks up the phone."
