

## Locally Sourced Countertops — We Work With Your Cabinet Company

*Bundling works best when your countertops come from a local fabricator, not an overseas supplier.*

### On-Demand Delivery

We deliver unit by unit — on your schedule. No waiting on full overseas shipments to clear customs before you can install a single top..

### Field Measurement If Required

If your project needs it, we'll come to the jobsite and measure at no extra charge — so what we fabricate fits, no punch-list surprises.

### Local Fabrication

Made right here in North Carolina. If a piece is damaged or a layout changes mid-project, we turn around a replacement fast — not in 8–12 weeks.

## The Difference a Local Countertop Partner Makes

Scenario	Overseas-Sourced Tops	Majestic Surfaces
Damaged piece on delivery	Reorder: 8–12 week wait	Replacement fabricated locally — fast turnaround
Unit count changes mid-project	Locked in — no flexibility	Adjust and deliver as needed
Layout revision after rough-in	Prefab sizes — no custom cuts	Custom fabricated to field measure, if required
Pricing vs. overseas-sourced tops	Low — but risk is hidden	Competitive — with local accountability

*“Your cabinet vendor and your timeline both win when the countertops come from down the road, not across an ocean. **That’s the partnership we bring to the table.**”*

### Get a Quote on Your Next Project

Send us your specs and we'll turn around a competitive number fast. We'll coordinate directly with your cabinet vendor. Field measurement available if your project requires it. Tops delivered on demand — no on-site storage required.
