

## See Where Your Countertops Are Made

An open invitation to tour our North Carolina fabrication facility.

**60,000**

SQ FT AUTOMATED FACILITY

**6,000**

SQ FT FABRICATED PER DAY

**100%**

MADE IN THE USA

### Why Builders Make the Trip

- **See the automation firsthand.** Walk the floor and watch how a 60,000 sq ft facility turns out 6,000 sq ft of fabricated tops a day — consistent quality at production scale.
- **Fabricated in the USA.** Less exposure to tariff swings, overseas shipping delays, and customs holdups that can stall a schedule.
- **Meet the team behind your projects.** Put faces to the people fabricating and coordinating your jobs — not just a name on a quote.

### What a Visit Looks Like

Stop	What You'll See
Production Floor	Automated cutting, polishing, and edge work in action
Material Selection	Full slab inventory and current stock on hand
Quality Control	How finished tops are inspected before they ship
Logistics & Dispatch	How on-demand, unit-by-unit delivery is coordinated

*"Pricing on a spec sheet only tells half the story.*

*Come see the other half — the facility, the process, the people."*

### Ready to Set Up a Visit?

Reach out and we'll find a date that works for you and your team. Just bring your questions.
